HOW CAN I MAKE COST EFFECTIVE USE OF TECHNOLOGY IN MY SCHOOL?

What did you purchase this year?

Why?

How are you measuring the impact / cost effectiveness of your purchases?

Your present provision?

What technology is used the most / least?

What is the impact of technology across school?

What factors enable effective technology use?

What year groups make the most/ least use of technology?

What is the impact of identified technologies in specific year groups?

What factors inhibit effective technology use?

The Technology audit tool?

- Record all technology used in your school
- Give predicted costings to upgrade / replace technology
- Show how often and where technology is used
- Show where technology is having high / low impact
- Understand the factors that effect successful use of technology
- Allow you to make informed decisions about CPD
- Allow you to make informed decisions about future spending
